The cholers continues its ravages in ashville and other cities of the west. In Vashville there were eight deaths from Nasavillo insere were egat deaths from that disease on Monday. The numbers of victims to that scourge amounted to 565 during the 20 days when it was at its height. This would be equal to about 18,000 in New York, in the ratio of the

Local and State Affairs.

Radical Congressmen evidently consider that they are entitled to anything and everything that they can get including Credit Mobilier stock, back solary, and all manner of articles under the head of "station cry." They likewise exhibit considerable genius in deciding what belongs under the head of stationery. A member of the Forty-third Congress obtained under the head of stationery large quantities of teas, sugars, sonp, lemons, and stay-laces, sufficient at least to supply a large boarding-house or to start a Western grocery.

A foreign scientific periodical relates this suggestive story:

Some time since a lady called upon a celebrated oculist in order to consult him on account of her eyes, complaining that their power of vision had of late considerably diminished. At a glance the doctor saw that she was a lady of rank and wealth. He looked at her eyes, shook his bead, and thought the treatment would require much time, as there were reasons to feer amaurosis in her case. He must advise her, first of all, that as she had informed him she was residing a considerable distance in the country, she must more into the city at once, and thus enable him to see her frequently, if possible daily.

The lady then rented an elegant mansion, moved into the city, and the physician was punctual in his attendance. He prescribed this and that, and thus days ran into weeks and weeks into months.—The cure, however, was still coming. The physician tried to console her.

One day the patient hit upon a curious scheme, and she waited not long to carry it into effect.

She procured for herself a very old and poor attire, put a hood of tremendous size upon her head, took an old umbrella and market basket in her hand, and in these habiliments she visited her physician, selecting for the purpose a very rainy day. She had so well succeeded in disguising herself that the eye even of a lover could scarcely have recognized her. She was obliged to wait a long time in the anteroom of her physician, with many others, who, like her, were seeking relief. At last her turn came.

"Well, my good woman, what have you to complain of?"

"Very bad even." She content, when answered.

"Very bad eyes, doctor," she answer-

Wery bad eyes, doctor," she answered.

He took her to the light, looked into her eyes, but failed to recognize his patient. Strugging his shoulders, he said:

"Your eyes are well enough."

"Weil?" she said.

"Yes: I know what I am saying."

"But I have been told that I was getting the a—a—forgot how it is called."

"Annaurosis?"

"Yes, that is it, doctor."

"Don't you let them make you believe any such nonsense. Your eyes are a little weak, but that is all. Your physician is an ass!"

"An—?"

"Yes, an ans." Tell him boldly that I saids so."

The lady now arose, and in her customstry voice said: "Sir, you are my physician of its value."

the lady now arose, and in her customtry voice said: "Sir, you are my physician; don't you know me?"

The face the sage counselor made is sailer to imagine than to describe.

"Gracious, madame!" he commenced to stammer an apology, but the lady would not listen to bita, and left him indignantly. She never saw that gentleman any more.

A Roman Ecclesiastic, in reply to whatever question might be proposed, used to begin by asying: "I make a distinction."

A cardinal having invited him to dine, proposed to derive some amusement for the company from the well known peculiarity of his guest. Saying to him that he had an important question to propose, he saked:

"Is it under any circumstances lawful baptize in soup?"

"I make a distinction," said the priest. "If you sak, is it lawful to baptize in soup in general, I say 'No!" If you sak, is it lawful to baptize in soup in general, I say 'No!" as to effectually purge out the great corruptions of the blood, such as the scrotulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful anti-dote and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrotulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Botils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Eryspelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrheea, when they are manifestations of the scrotulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listess languor of the season. Even when no disorder appears, people feel better, and live longer, for cleaning the blood. The system moves on with renewed vigor and a new lease of life.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists,

SOLD BY ALL DRUGGISTS EVERYWHERE,

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Gray on Faden Hain to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair Diressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The consitiuents are pure, and carefully selected for excellent quality; and I consider it the Bust Purparanton for its intended purposes."
